59	Alexander Mackenzie Heritage Corridor, British Columbia
60	Chilkoot Pass, British Columbia/Yukon
61	Ranches, Alberta
62	General (Alberta and British Columbia)

Preface

References cited in this bibliography relate directly to the archaeology and history of the Canadian Parks Service National Parks and National Historic Parks and Sites in Western Region. The majority of topics covered, therefore, are connected specifically to archaeological and historical research carried out in these areas. However, some reports dealing with other disciplines have been included if their content is deemed significant to the archaeology/history of the study area.

The majority of the entries are the product of the Canadian Parks Service Archaeological and Historical Research staff. There are however, a number of reports which were produced by other agencies or individuals through contract work with Canadian Parks Service or on an independent basis. All listed references are on file with either the Archaeological Research Services Unit or Historical Research Services Unit, Western Region, with the exception of those titles marked by an asterisk (*).

This reference source will be updated annually to provide a comprehensive and current list of archaeological and historical reports and manuscripts associated with National Parks and National Historic Parks and Sites in Western Region.

Copies of this bibliography can be obtained by writing to the Archaeological Research Services Unit, Environment Canada, Canadian Parks Service, Room 552, 220 - 4th Avenue S.E., Calgary, Alberta, Canada, T2P 3H8, Attention: Head, Archaeological Research.
