				Indians.
TOTALS - - - - -	4,024	6,498	8,502	14,176

- - The population of these first four places is taken from an estimate by J. Le Boutillier, esq. In the census of 1825 and 1831, St. Anne's and Grand Etang are reckoned together.

By returns furnished to the Commissioners of Inquiry.

Ditto.

Ditto.

- - Estimated by adding two-thirds as the ratio of increase to the amount in 1831, and taking in the population of new settlements along the shore.

- - By estimate of H. B. Johnson, esq. Point St. Peter, probably underrated.

By ditto of J. Le Boutillier, esq. and Rev. Mr. O'Grady.

By returns furnished to Commissioners of Inquiry.

Ditto.

- - Estimated by adding two-thirds as the rates of increase to the amount in 1831, and allowing for new settlements.

- - These numbers are stated for the year 1842, from a careful enumeration made by Wm. M'Donald, esq. Crown Land Agent, in 1840, and transmitted to Government; to the amount of which has been added one-ninth for the two following years, being at the ratio of increase in the former periods of six years.
